These masks can reduce droplet transmission from mouth and nose. While masks help protect against certain particulate contaminants, they do not eliminate the chances of exposure to, or the risk of contracting disease or infection.

Verigreen Earth is a import/export company located in Florida, USA. We source PPE directly from professional manufacturers that supply to hospitals overseas. Our manufacturers are registered with the FDA and certified to carry the CE mark for Europe. We encourage businesses to supply masks for their employees, as well as have them available to purchase at point of sales for consumers.
